

**Timothy Dupont |**  
Blue, A Design House

**BLUE, A DESIGN COMPANY,** Inc. was established in 1996 and services a global clientele from three worldwide locations. As leading architects and interior designers, Blue is proud to have very close working relationships with their clients, who are involved in every decision and every facet of their project. This

involvement eliminates surprises and allows for an uncomplicated progression from design through implementation and completion. Blue is proud to list many business industry leaders as well as celebrities as their clients. Timothy DuPont, Principal of Blue, is leading the team for the DCOTA DesignHouse 2010 kitchen.

“The inspiration for this project was the City of Chicago itself. This corner penthouse in Water Tower Place overlooks the entire city and lake and is a refuge in the sky.”
